## WORK EXPERIENCE

### Apptify Solutions (Senior Full stack Developer)

June 2022–Present

- Lead full-stack web and mobile app development for cohesive, responsive user experiences using HTML, CSS, JavaScript, React.js, Next.js (front-end) and Node.js, Express.js (back-end)
- Create intuitive, visually appealing UIs and optimize UX with responsive design.
- Implement and maintain databases (relational and NoSQL) for data integrity and performance.
- Stay updated with tech trends, perform rigorous testing and debugging, and optimize performance for scalable, business-responsive solutions.

### U Technologies Inc (Technical Lead)

Oct 2018–May 2022

- Developed and maintained web applications using MongoDB, SASS, React.js, TypeScript, JavaScript, and Node.js.
- Collaborated with cross-functional teams on full-stack development projects.
- Conducted code reviews and contributed to software architecture decisions.
- Assisted in optimizing application performance and scalability.
- Stayed updated with emerging technologies to drive innovation in software development.

### Hawks Digital Labs (Senior Software Engineer)

Feb 2013–Sep 2018

- Developed software applications using SASS, Express.js, React.js, and the MEAN Stack, contributing to both software and application development projects.
- Collaborated with cross-functional teams to meet project goals, supporting the team's efforts in achieving project objectives.
- Maintained software projects for over 4 years, ensuring their continued functionality and improvement.
- Implemented full-stack development using SASS, Express.js, React.js, and Node.js, contributing to full-stack development for over a year.
